Subject: Endorsement of the Digital Skills Literacy program: Digital Skills Passport

To whom it may concern,

With a young workforce on the African continent needing skills in various areas, the Digital Skills Foundation provides a comprehensive solution; General Digital Literacy program (online and offline) allowing all people to acquire digital skills being efficient, productive and safe in a global digital environment.

The course can be taken by anyone and allows people to work at their own pace in their own or office environment without leaving the work place. The course is suitable for anyone as off 15 years old. It is used in Institutions, TVET, Universities, Companies and Governments.

For any organization this is cost effective, scalable and allows no loss of productivity. The course is sanctioned by 10 exams that are taken in a controlled environment.

We recommend the Digital Skills Foundation with the Digital Skills Passport to anyone who would like to gain these skills and function in a better and more secure manner in this digital world.

Faithfully,

Sandrine Sorieul
Vice President
